Cyprus as a Strategic Business Hub

Cyprus is increasingly recognised by foreign companies and investors as a strategic gateway to the European Union and global markets. Establishing headquarters in Cyprus offers significant advantages, including a competitive corporate tax rate, an extensive network of double taxation treaties and attractive exemptions on dividends and capital gains. The country also boasts a highly skilled workforce, robust intellectual property (IP) protection frameworks and a business-friendly environment with seamless access to the EU single market. Combined with its exceptional quality of life, Cyprus stands out as an ideal base for enterprises looking to scale globally and optimise their international operations. Cyprus will hold the Presidency of the Council of the European Union during the first half of 2026, its second term after 2012. During this period, Cyprus will ensure

continuity in the Council's work and legislative processes while cooperating closely with other Member States and European institutions.
